

## **Caring for your FinnFlier™**

Congratulations on purchasing a brand new FinnFlier™ flight-training Javelin from Sightline Performance Limited. You have joined the 'Javelution' in the United Kingdom and Republic of Ireland.

Before getting out there and having great fun throwing your FinnFlier™ for the first time, there are a few things that you need to know in order to take special care of this amazing product...

### ***Be aware....***

1. During transit, the FinnFlier™ can exhibit some cosmetic scuffs when it has rubbed against another FinnFlier™ or from coming into contact with other surfaces. Do not panic...this is absolutely normal and a damp cloth will ensure it looks as good as new again!
2. A FinnFlier™ is a very flexible Javelin, hence why it is so forgiving on the throwing arm. Over time it can show an appearance of having bent a little. Again, do not fear...it is very easy to bend it back into place with a little bit of pressure against the direction of the bend.
3. When you receive your FinnFlier™, check the staples that hold the point, grip and tail in place. If these have come loose, then notify Sightline Performance Limited immediately and we will issue a replacement. This is an unlikely occurrence however.

### ***Dos and Don'ts ...***

1. The FinnFlier™ can be thrown on grass, 3G, 4G, astro, Mondo™, Polytan™ and softer wooden sports hall floors. It is however our advice to **NOT** throw the FinnFlier™ on concrete/ tarmacs. There is very little give in these surfaces and not only will it scuff the shaft, it also means that the tail (the most vulnerable part of any Javelin) could snap off which will affect the usability of the product.
2. The FinnFlier™ teaches flight-skills with young throwers by being safe, functional and educational. Play with your FinnFlier™ and have great fun with it, in the knowledge that the transfer to throwing a Javelin is very smooth.
3. Stay safe....whilst the point and tail are plastic and blunt, they can still cause harm if safety guidelines are not adhered too. Have fun, but be respectful at all times. The FinnFlier™ is a real Javelin!

**Throw safe, throw far but moreover...have fun!!!**

**EXCELLENCE**

**DEDICATION**

**AMBITION**
